To Whom It May Concern,

**Re: Stephen Scarisbrick.**

We have known Stephen Scarisbrick for many years and during this time have used him for all our domestic and commercial decorating work.

We have always found his work to be of the highest quality and have been entirely satisfied with everything he has done for us. He has always commenced a work programme on the designated day and has then continued, without break, until the task has been completed. We have never been left with work partially completed and awaiting his return.

This complete confidence in both his quality and his application has been the major reason for always using him and we will always await his availability rather than use another contractor.

When carrying out decorating work, he is always clean and tidy and leaves the work area impeccable every night before leaving. Equally, he is thoroughly trustworthy and reliable and we never hesitate to give him access to premises when there is no-one else in attendance or to leave him working and responsible for securing the premises once his work day is ended.

We would have no hesitation in recommending Stephen for any domestic or commercial decorating contract where quality, thoroughness, punctuality, honesty and reliability are important.

Sincerely,

**J. M. Holt.**
